

VISHAL SINGH

Flutter Developer | 2+ Years | 10+ Production Apps | Govt. & Enterprise Deployments
csvishal6724@gmail.com | +91 9782691587 | Jaipur / Delhi | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 2+ years of experience independently delivering 10+ production-grade mobile applications across government, enterprise, and consumer sectors — sole developer on all projects from architecture to deployment. Proven expertise in cross-platform Android & iOS development using Flutter and Dart, with hands-on integration of AI/ChatGPT APIs, Bluetooth/IoT, Stripe, Razorpay, Apple Pay payments (international & national), Firebase, REST APIs, and GPS tracking. Currently serving as Software Developer (Telecom & Security) at the Department of Telecommunication, Government of India. B.Tech. Computer Science graduate with Distinction and no backlogs. Track record includes multiple official government deployments, published Play Store & App Store apps, and a project officially launched by Hon. Home Minister Shri Amit Shah.

PROFESSIONAL EXPERIENCE

Software Developer – Telecom & Security

Nov 2025 – Present (8+ months)

Department of Telecommunication, Government of India

Delhi Headquarters

- Developing and maintaining secure T&S software systems supporting India's national telecommunication infrastructure.
- Contributing to government-grade security protocols, system architecture, and software deployment pipelines.
- Collaborating with cross-functional teams on critical telecom projects under the Ministry of Communications.

Flutter Developer

Sep 2025 – Nov 2025

Kotibox

Jaipur

▶ **Sofo – E-Commerce Marketplace [Solo Developer]**

- Built a complete shopping platform with product catalog, smart search, cart, wishlist, COD, and online payment modules.
- Integrated geo-based delivery scheduling and real-time order tracking; improved retention through personalized shopping flows.

▶ **Magic Wash – Vehicle Cleaning & Service Booking App [Solo Developer]**

- Developed customer-facing app for booking car/bike washing services with live appointment tracking and payment gateway integration.

▶ **Magic Genie – Workforce Attendance & Task Booking System [Solo Developer]**

- Built mobile workforce tool for attendance marking, shift slot booking, and post-work image uploads with supervisor reporting.

▶ **E-Commerce App – International Platform with Stripe Payments [Solo Developer]**

- Delivered full international e-commerce app with Stripe payment gateway for secure cross-border payment processing.

Flutter Developer

Jul 2024 – Sep 2025 (1 yr 3 months)

Vedant InfoSoft And Solution Pvt. Ltd.

Jaipur

▶ **RoboTouch – Smart Massage Chair IoT App [Solo Developer | Play Store & App Store]**

- Built a 7-role IoT app (Super Admin, Admin, Operator, Technician, Customer, Sub-dealer, Franchise) with role-based login, bottom nav, drawer, and dashboards.
- Implemented encrypted Bluetooth BLE commands for remote massage chair control with real-time chair status monitoring.
- Integrated Razorpay & digital wallet with QR scan-and-pay, mobile recharge, family recharge, and Fastag recharge via API.
- Integrated Apple Pay, Stripe (international) and Razorpay (national) payment flows — covering both domestic and cross-border transactions.
- Delivered auto-generated Excel sheet reports, role-based revenue dashboards, data call feature, and email-based forgot password with OTP.
- Delivered automated reports, role-based dashboards, and advertisement management for business operators.

▶ **Sweet Exchange – RCDF Project [Solo Developer | Launched by Hon. Home Minister Shri Amit Shah]**

- Built government-authorized inter-dairy sweet exchange app for Rajasthan Cooperative Dairy Federation (RCDF).
- Enabled vehicle tracking, exchange order approvals, and logistics management; integrated with RCDF's central dairy system.
- Recognized as a landmark government digital transformation project at state level.

▶ **APDP Water ATM – QR-Based Water Booth Payments [Solo Developer | Play Store]**

- Built QR payment system for citizens to purchase water from automated government booths with wallet payments & live dashboards.

▶ **Saras Marketing – Field Attendance & Dairy Management [Solo Developer | Govt. Project | Play Store]**

- Developed field employee attendance and GPS route monitoring for Ajmera Dairy under Saras government initiative.

▶ **DIPR – Dept. of Information & Public Relations [Solo Developer | Govt. Deployment]**

- Independently built and deployed official government field reporting app with EXIF extraction and auto-generated Excel & PDF reports.

▶ **Water Tanker Management System [Solo Developer | Govt. Project]**

- Created complete mobile platform for citizen booking, dispatch coordination, and live GPS tracking of government water tankers.

Cross-Platform Developer

Apr 2024 – Jun 2024 (3 months)

WebrockMedia (WRM)

Jaipur

- Integrated OpenAI ChatGPT API to build an in-app AI-powered conversational chatbot — improving customer support automation.
- Implemented Firebase Auth, Realtime Database, and push notifications; developed custom weather app with 3D animations.
- Contributed to YellWish, a USA-based Flutter client project.

TECHNICAL SKILLS
